SUPPLEMENT TO REPORT NO.

- SK-ELD has received an invitation to send representatives to London to take part in the Congress of the Komisko (sic) which will take place on 3 December 1948. The invitation was announced in the newspaper Machi on 24 October 1948.
- 2. SK-ELD will make a great effort to send representatives of that party to London. It is their purpose to determine the opinion held abroad regarding SK-ELD, and also to rehabilitate the party "which has been slandered by various persons ...ho have sold out to the Anglo-Americans".
- The leaders of SK-ELD believe that in London they will succeed in having SK-ELD recognized as the only organized Socialist movement in Greece. Consequently, they believe, SK-ELD will be assigned the leadership in Greece of the movement for the United Socialist States of Europe.
- 4. In the report which will be made regarding the Communist Parties, it is the intention of SK-ELD to "muddy the waters" in relation to KKE and to attempt to throw responsibility for the situation in Greece upon the Anglo-Americans first of all. It will be maintained that through their intervention in Greece and their support of the monarcho-fascist Rightists the Anglo-Americans have made the Rightists their tool and have brought about the present situation.
